

Program Status Form

Submit this form and all required attachments to Sally Podolski via email, spodolski@aasm.org
or fax, (630) 737-9790

Potential Criteria for Program Selection:

For Part-Time Model: (Please also provide CV of program director)

1. Do you have a traditional fellow committed to your fellowship (i.e. through the Match) for AY 2020/21? _____
2. How many fellows do you have committed on the traditional pathway for AY2020/21? _____
3. Do you have a potential candidate to participate in the “part time” pilot model of fellowship training for AY 2020/21? _____
If Yes, what is their background specialty: _____
4. Would you be willing to self-fund one pilot fellow? Yes No
5. Provide a list of your program’s current core faculty and their subspecialty backgrounds: _____
6. Please provide the specialty training background(s) (e.g. internal medicine, neurology, family medicine, psychiatry, etc.) of the fellows you have trained over the last 5 years. _____
7. What is your board pass rate for fellows completing your program over the last 5 years? _____

8. Describe the logistics of the clinical and educational experience your program would provide for the fellow participating in this pilot program of part-time competency based training, including your plan for assessing milestone achievement, as well as how this would impact the experience of fellows participating in traditional pathways of training at your institution (Maximum 500 words).

For Blended Model: (Please also provide CV of program directors (Sleep Medicine and Pulmonary))

1. Do you have a traditional fellow committed to your fellowship (i.e. through the Match) for AY 2020/21? _____
2. How many fellows do you have committed on the traditional pathway for AY2020/21? _____
3. Do you have a potential candidate to participate in the “blended” pilot model of fellowship training for AY 2020/21? _____
If Yes, are they adult or pediatric pulmonary fellows: _____
4. Would you be willing to self-fund one pilot fellow? Yes No
5. Provide a list of your program’s current core faculty and their subspecialty backgrounds: _____
6. What is your board pass rate for fellows completing your program over the last 5 years? _____
7. What is the board pass rate for pulmonary fellows from the companion program with which sleep medicine will be blended over the last 5 years? _____

8. Describe the logistics of the clinical and educational experience your program would provide for the fellow participating in this pilot program of blended competency based training, as well as how this would impact the experience of fellows participating in traditional pathways of training at your institution (Maximum 500 words).
